# PediatricSimulationGames 5.0

Program and organizing manual

Latina 6th - 9th September 2023

## Regulations for prevention of the spread of Coronavirus infection

All participants are required to:

- Be in compliance with the provisions of the Italian government for the containment of infection by COVID-19-

**As part of the event,** teams are required to submit a quasi-serious video illustrating in an ironic vein the work of the pediatric resuscitation team

---

Considering the success of the PediatricSimulationGames, also this year Sapienza University of Rome will organize the 2023 edition of the Games. The PediatricSimulationGames will become a fixed appointment in the educational program of Sapienza University of Rome.

The Games will be held in Latina, between the 6th and 9th of September.

The mood will be 'learning to play' and 'playing to learn'.

*Learning to play:* in a friendly but highly technical competition, as in the last edition we will have an international jury composed of four major figures of the global Pediatric Emergency Care, that will handle the education debriefings at the end of each session. Even more judges could be invited according to the number of international teams participating.

*Playing to learn:* we know from the evaluation they completed that the residents started studying a long time before the event and have continued studying even after the Games, preparing for next edition in order to improve and compete.

**This year's games will be enriched by the special "the torchbearer of the PSGs" awards, which will be given to the teams that, based on the jury's judgment, have distinguished themselves by:**

- the best teamwork**
- the best management of CPR**
- the best airway management**

To allow each team to play more, the Games will consist of four rounds, which will compete in simulated emergency pediatrics for three days in a row. At the end of the rounds, there will be a final between the top 8 teams. If there are more than 32 teams, a new round will be organized for every 8 new teams.

Application to the Games will be open from February 15<sup>th</sup> to 15<sup>th</sup> Mars according to the rules of this manual.
